CNEDirectoryUpdates@carene.org

Dear Integra Colleagues:

We are pleased to share with you this Integra directory, a complete listing of all Integra participating primary care practices and specialists.

The scope of the providers listed in this directory speaks to the tremendous depth and breadth of the Integra network of which you are a part. We have worked very hard, with each of you, to build this network over the past several years, and we are committed to continuing this in the years ahead.

This directory is your tool to help you realize the benefits of this network and your participation in Integra. Integra best serves its patients when we keep care within the Integra network, within our shared system of care. Integra's participating providers share a common commitment to efficient, high quality, patient-centered care. When you refer to an Integra practice, your patients benefit from shared information systems, quality standards, and dedication to evidence-based, best practice medicine.

Use this directory to help your patients make well-informed healthcare decisions. Get to know the providers near you and your patients. For primary care practices, take a moment to familiarize yourself with the providers in the specialty areas to which you regularly refer. Specialists, introduce yourself to those primary practices with whom you would like to have stronger partnerships. We will update the Integra provider directory over time to include new Integra providers.

Producing this directory – while a significant accomplishment – is not an end in and of itself. This directory, and the connections it is intended to foster, are the means by which we will all, together, achieve our common goal: ensuring our patients get ***the right care, at right the time, in the right place.***

Sincerely,

James E. Fanale, MD
EVP, Chief Operating Officer/Chief Clinical Officer
Care New England Health System

Albert J. Puerini, MD
Chair, Board of Managers, Integra Community Care Network
President & CEO, Rhode Island Primary Care Physicians Corporation
